

Industrial ironers

IC43316, IC43320

Features and benefits

- Easy to use control panel
- Ergonomic working height
- Finger guard protection providing additional security for operators
- Pressure roll with a Nomex[®] padding for a good ironing quality
- Durable ironing belts made of Nomex[®] which can withstand temperatures above 200°C
- Stainless steel cylinder prevents rust and improves lifetime
- Gas heated ironers using the maintenance free ceramic gas burner technology
- Return feed, can be installed close to a wall for space saving
- Foldable feeding tray so that large flats avoid touching the ground

Main options

- Electronic control panel with automatic speed regulation system (DIAMMS*) – compatible with the RABC** process for the traceability of ironing parameters; flashing light showing to the operator that an item is not processed according to the standard
- CMIS*** connection for an automatic recording of the ironing parameters
- Nickel-plated cylinder for better production on cotton items
- Manual folding arm for easy folding of large flat items by only one operator
- Payment system version with a clutch to control the feeding belts, for installation in apartment house laundries or self service laundries
