

# AGS Equine

Aloe Vera detergent for clothes

## COMPOSITION

Mixture of non-ionic amphoteric surfactants and enzymes with high cleaning power. Green liquid with pleasant fresh and natural scent.

## CHARACTERISTICS

- AGS Equine purifies and cleans textile fibres deep down without affecting resistance or colour.
- Highly concentrated only requiring one third of a standard dose to obtain perfect results
- Operates at low temperature thus helping to save energy
- AGS Equine contains the most innovative and advanced surfactants available in the textile care sector. It is formulated with an active ingredient effective against a wide range of bacteria, including Gram negatives, considered among the most harmful to the health.
- Mainly composed of raw materials of vegetable origin

## INSTRUCTIONS

Recommended doses per 5 kg of washing:

	<b>SOFT WATER</b>	<b>MEDIUM WATER</b>	<b>HARD WATER</b>
Light Soil	<u>15ml</u>	<u>30ml</u>	<u>45ml</u>
Medium Soil	<u>30ml</u>	<u>45ml</u>	<u>60ml</u>
Heavy Soil	<u>45ml</u>	<u>60ml</u>	<u>75ml</u>

If we have set up your dosing pumps, we have tested your water hardness and discussed the soil level that your site processes to ensure excellent results. However, initially, if required we will need to liaise regularly to ensure high quality standards and we will be available to make any necessary adjustments.
