

## 2. Machine description

The machine described here is a dummy for finishing trousers.

The dummy was designed for:

- clothing industries;
- professional drycleaners;
- ironing companies.

The dummy must be used by qualified and capable personnel who have been suitably trained on its operation.

The manufacturer assumes no responsibility for any damage to people or things resulting from the improper, incorrect or unreasonable use of the machine.

### 2.1. How to identify the machine

The machine is identified by a technical data plate. The plate is found on the back of the machine as shown in figure 2.1. Do not alter or change in any way the data on the plate. Do not remove the plate.

#### Description of the data reported on the technical data plate

Serial No.	5-digit serial number of the machine
Type	Numeric code that identifies the product model
V	Rated voltage
Hz	Rated frequency
kW	Rated power
A	Rated current
Date	Registration date

**i** This manual describes all versions of the machine. Before reading the manual, identify the version of the machine in your possession by reading the code in the "Type" box of the technical data label. When reading the manual, only consider the information relating to the version in your possession.

### 2.2. Technical data:

For dimensions, see figure 2.2.

	Type	
	535x	535xT226T
Power supply	230V 1 50Hz	220V 3 60Hz
Steam input	1/2"	1/2"
Condensation-return	1/2"	1/2"
Air input	1/4"	1/4"
Blowing power	1,1 kW	1,5 HP
Steam pressure	min	500 kPa (5 bar)
	max	600 kPa (6 bar)
		72 PSI
		87 PSI
Minimum air pressure	600 kPa (6 bar)	87 PSI
Steam consumption	30-40 kg/hr	66-88 lbs/hr
Air consumption	120 NI/cycle	4,2 cf/cycle
Net/gross weight	646 kg	1424 lbs
Ambient temperature	15 - 40 °C	59 - 104 ° F
Noise	80 db	80 db
