

2. Description of the machine

The machine described in this manual is a form finisher for pressing both dry-cleaned and washed garments for the upper body (e.g. jackets, coats, overcoats).

The form finisher is designed for professional use only in:

- Garment manufacturing industries;
- Large and small Industrial dry cleaners;
- Garment finishing industries.

The form finisher must be utilized only by qualified personnel, who have been specifically trained on this type of machinery.

The manufacturer does not accept any responsibility for damage caused to persons or things due to improper, erroneous or unreasonable utilization of the machine.

2.1. How to identify the machine

The machine is identified by a technical data plate. The plate is found on the back of the machine, as shown in picture 2.2. Do not alter or modify in any way the data on the identification plate. Do not remove the identification plate.

Description of the data in the identification plate

Serial N	5 digits serial number
Type	Product code
V	Tension
Hz	Frequency (cycles)
kW	Power absorption
Date	Date of production

i This manual describes all the versions of the machine. Before reading the manual identify the version of the machine you own by reading the machine "type" in the technical data plate. While reading the manual take into account only the information related to the version of machine you own.

2.2. Technical data

For machine dimensions see Figure 2.1.

	5038, 5039	5039T226T
Electrical requirements	400V 3N 50Hz	220V 3 60Hz
Steam inlet	1/2"	1/2"
Condensate return	1/2"	1/2"
Max steam pressure	600 kPa	87 PSI
Air inlet	1/4"	1/4"
Blower motor	2,5kW	3 HP
Suction motor	400 W	0.5 HP
Front clamp	1000 W	1000 W
Air pressure	600 kPa	87 PSI
Steam consumption	15-20 kg/h	33-44 lbs/hr
Air consumption	15 NI/min	0,53 cfm
Net/gross weight	240 kg	529 lbs
Noise	80 dB	80 dB
Ambient temperature	15 - 40 °C	59 - 104 ° F
